

## FEEDBACK NETWORK:

### Mass Distribution

Email Date: August 19, 2013

**SUBJECT LINE:** August 22 Webinar & Update on Feedback Network

*This email is being sent on behalf of Karen Merrikin, State Health Care Innovation Planning Project Director.*

Thank you for your continuing participation in the State Health Care Innovation Planning process. The [agenda for the August 22 webinar](#) is now available. The Thursday, 11 am to 12:30 pm, session will focus on ensuring a whole-person approach to health. If you plan to attend but haven't yet registered, [click here to register](#).

A brief update on the SHCIP Feedback Network:

- **More than 670 people are now members.** Our thanks to each of you for your participation. In the coming months, we will be releasing (1) the plan outline (end of August) and (2) the draft Innovation Plan (mid-October). If you know others who may wish to review these documents, please forward this email to them and ask them to send a request to be added to the Feedback Network to [simquestions@hca.wa.gov](mailto:simquestions@hca.wa.gov).
- **More than 100 comments have been received from Feedback Network members** to date. We read and assess every submission. Documents distributed or available to the Feedback Network are available on the [Resources & Documents page of our website](#). Video and audio recordings of the June 27 and August 8 webinars also are available on the Resources & Documents page. Comments and/or questions are always welcome.
- **A topical summary of the comments received from Feedback Network participants** appears below, with the number of comments provided in parentheses (**green** indicates recent additions). It is important to note that the State Health Care Innovation Planning process is designed to result in a five-year plan for health care transformation. Project requirements imposed by the funding source and the short timeline make it impossible for us to integrate all of the ideas, but every suggestion is considered.
  - ACR Clinical Decision Support (1)
  - Aims (12)
  - Aging and Chronic Care (1)
  - Basic Health Plan (1)
  - Behavioral Health Integration (2)
  - Communications and Client Education (1)
  - Communications (5)
  - Community Health Center Perspective (1)
  - County Health Perspective (1)
  - Data Collection (1)
